- Prices are per sample, excluding VAT (a 20% discount will be applied to universities and other research institutions).
- Turnaround time for results: 10 days from receipt of samples
- Any shipping costs for the samples are to be borne by the client
- Identifications refer to samples of the Italian flora; for samples from foreign floras, please contact us in advance to verify feasibility
- For identification requests involving a large number of samples, flat-rate fees can be arranged
- Samples submitted for the service must be as complete as possible
